Subject: SSFS Work Plans terminology

Dan,

For my comment letter, would the official reference to these documents be "Supplemental Supplemental Feasibility Study Work Plans"? Also, I noted Paul titled some as "Work Plans" and others as "Scope of Work and Schedule". I know these terms are sometimes used interchangeably, but previously, EPA provided the scope of work and schedule prior to the work plan. I just want to be sure I am referencing these correctly in my letter.

Thanks,
